NEW BOOK

Fundamental work of Kierkegaard for the first time in modern Danish.

Everyone interested in Kierkegaard interested - especially students - can rejoice, because now is one of the author and philosopher Søren Kierkegaard (1813-1855) most central and read works available in modern Danish, namely *Philosophical crumbs or a little bit of philosophy* - or just *Crumbs*, as the work is popularly called.

It was released in June 1844 under the pseudonym Johannes Climacus and coherent with *Works of Love* and *The Concept of Dread* for the most widely read religious-philosophical works of Søren Kierkegaard.

It consists of an introduction and five chapters, in which Kierkegaard examines whether there is a historical basis for an eternal consciousness - and whether you can build his objectivity on the claim that God has revealed himself in Jesus Christ.

Two years after the *Crumbs* Kierkegaard publishes a 'comment' to the book, namely the extensive work *Concluding Unscientific Postscript*, where Kierkegaard states the faith terms.

The book is richly illustrated. In modern Danish by author and philosopher, MA. Jens Staubrand.

Fact: Søren Kierkegaard: *Philosophical crumbs or a little philosophy*, by Jens Staubrand. 176 pages. ISBN 9,788,792,510,174th Dkr: 199 DKK. - The press release and press kit is online at our site. Released: 20. October 2014.

Sincerely,

A handwritten signature in black ink, reading "Vibeke Hinge Jensen". The signature is written in a cursive, flowing style.
